

NABIP Advocates for You

The National Association of Benefits and Insurance Professionals (NABIP) fights for the interests of its members at the state and federal levels of government to advance the health insurance industry and promote affordable and responsible private health insurance market solutions.

Formerly the National Association of Health Underwriters (NAHU), the association has a lengthy history defined by its advocacy prowess and commitment to advancing the interests of its members. Today, the benefits and insurance industry is different from what it was two decades ago—and is continuously changing. With our new name, the association can evolve alongside the industry and anticipate new dynamics while reaffirming itself as the industry's leading voice for years to come.

Why is our advocacy important?

As the issues encompassing our membership diversify and increase, our advocacy efforts remain a top priority for the association. We continue to position the interests of our members at the forefront with critical policymakers and opinion shapers. NABIP headquarters, located in the heart of Washington DC, and our presence in all 50 states, allow us to keep a finger on the pulse of legislative efforts and shape the issues that matter to our members and their clients.

How do we conduct advocacy efforts?

NABIP meets regularly with members of the administration, including domestic policy staff at the White House, the secretary of Health and Human Services, the head of healthcare.gov and officials at the Department of Treasury and Department of Labor. Additionally, NABIP has continued the legacy of its premier grassroots program, Operation Shout, to put you and your clients in touch with members of Congress – ensuring our engagement with Capitol Hill audiences remains consistent and impactful.

NABIP's Legislative Council, a coalition of representatives from across NABIP's regions, is primarily responsible for developing the formal positions that guide our legislative strategy. We have secured our position as an industry leader by staying true to our core mission and values. As NABIP, we will continue to place a premium on advocacy and utilize the Legislative Council to guide future strategies.

NABIP's PAC remains dedicated to its original purpose: maximizing members' political impact by combining and deploying financial support to candidates who are proven champions of our industry. Our PAC engages with lawmakers from both parties to make sure NABIP members' voices are heard. We encourage our members to engage in political expression through our rebranded PAC. In 2021, our PAC helped save consumers more than \$400 billion, and our members have the power to continue our PAC's legacy of success.

A Legacy of Leadership

"NABIP is a trusted resource for Congress and the administration, and the influence we have built over the years allows us to work for our members and their clients on the issues most important to them."

JANET TRAUTWEIN | NABIP CEO
